

BTEC level 3 Extended Diploma in Creative Media Production (Film & TV) Edexcel

What does the course involve?

On this course you will explore the creative world of the moving image through planning, shooting and editing your own video production work. You will develop your practical skills which cover lighting, video editing and digital effects, cinematography, sound recording and design, to produce a portfolio of moving image productions. These practical applications are enhanced over the two years by an understanding of the theory behind your practice, enabling you to fully exploit your creative potential in this exciting and diverse industry.

As part of your main programme of study you will work towards a qualification in Maths or ICT where appropriate.
