

BTEC level 3 Extended Diploma in Applied Science Edexcel

What does the course involve?

The course is delivered in 4 pathways:
Core, Industrial Chemistry, Forensic Science
and Space & Technology.

Each pathway is delivered with vocational
experiences in mind with each having an
industrial visit, guest speakers, work based
project and university visit linked to
the pathway.

As part of your main programme of study you
will work towards a qualification in ICT where
appropriate.

What units will I be studying?

You will study units such as;

- Astronomy
- Metals
- Environmental technician
- Chemistry laboratory techniques and analysis
- Industrial chemistry
- Criminal investigations and practice
- Forensics and biochemical analysis
- Maths and Statistics for science
- Conducting investigations and working in the science industry

What are the career opportunities open to me if I take this course?

This will lead to University courses in various science disciplines such as Forensic, Environmental, Industrial Science, Engineering or Radiography. Those wishing to become a Doctor or a Veterinary Surgeon need to consider that a BTEC route will require you to complete either an HND or an undergraduate Biomedical Science Degree before taking a Medical Degree (6-7 years).
