Apprenticeships

HOW THEY CAN SUPPORT YOUR BUSINESS

- 1** You can 'grow your own talent' and ensure that staff in the workplace meet the needs of your business and are supported in their training by John Ruskin College.
- 2** Anyone can become an Apprentice. Please speak to the Apprenticeship team for the different funding options, as some Apprenticeships can be fully funded by the government.
- 3** An Apprentice is an additional resource to any business, with the average Apprentice wage being £170 per week.
- 4** You may be entitled to a grant of £1,000, for recruiting a 16-18 year old.
- 5** Speak to a member of the Apprenticeship team at John Ruskin College for further advice and guidance in recruiting or supporting an Apprentice.

In May 2017, the Government funding for Apprenticeships changed. An Apprenticeship Levy was introduced for all employers with a wage bill that exceeds £3 million.
