

SAFEGUARDING AND CHILD PROTECTION POLICY

1. Introduction

The Corporation refers to the East Surrey College Corporation, which represents the merged East Surrey and John Ruskin Colleges, also trading as Orbital South Colleges.

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002, and in line with statutory guidance: 'Working Together to Safeguard Children' 2018, Revised Safeguarding Statutory Guidance 'Framework for the Assessment of Children in Need and their Families' 2000, 'What to do if You are Worried a Child is Being Abused' 2015.

The policy also reflects statutory guidance 'Keeping Children Safe in Education' 2022 (KCSIE), and Surrey and Croydon Safeguarding Children Partnership Procedures.

The Governing body takes seriously its responsibility under section 175/157 of the Education Act 2002 to safeguard and promote the welfare of children; and to work together with other agencies to ensure there are robust arrangements within our College to identify, assess, and support those children who are suffering harm or at risk of suffering harm.

This policy applies to all members of staff and governors of the Orbital South Colleges group.

2. Purpose

The Corporation recognises that it has an explicit duty to safeguard and protect children, young people and adults at risk from abuse as defined in the following: Human Rights Act 1998, Children Act 2004, Section 175 of the Education Act 2002, Working Together to Safeguard Children 2018 and Keeping Children Safe in Education September 2022 [KCSIE], What To Do If You're Worried A Child Is Being Abused 2015, the Prevent Duty March 2015 and the Prevent Duty Guidance for Further Education Institutions 2021, Disqualification under the Childcare Act 2006 (updated 2019), FGM Act 2003 Mandatory Reporting Guidance 2016 (updated 22/01/2020), Information Sharing Advice for Practitioners' guidance 2018, Surrey and Croydon Children Missing from Education, SCC Touch and the use of physical intervention when working with children and young people, The Equality Act 2010 (including the Public Sector Equality Duty), Coronavirus (COVID-19): safeguarding in schools, Colleges and other providers (May 2020), and Surrey and Croydon Safeguarding Children Partnership protocols, guidance and procedures.

Safeguarding looks at preventative action and covers the full range of measures in place to protect children, young people, and adults at risk from potential dangers, including the safer recruitment of staff, and is therefore a *proactive approach*.

Child, young person, and adult at risk protection looks at recognising abuse or neglect and acting on it, so is a *reactive approach*.

The term “safeguarding” is defined by the Children’s Act 1989 and Joint Chief Inspectors Report on Arrangements to Safeguard Children (2004) as:

‘Organisations working with children, young people and adults at risk take all reasonable measures to ensure that the risks of harm to the individual’s welfare are minimised; where there are concerns about children, young people, and adults at risk’s welfare, and all organisations take all appropriate actions to address those concerns, working to agreed local policies and procedures, working in partnership with other local agencies’.

- *Promotes an environment in which every student feels valued and able to communicate their wishes and feelings successfully.*
- *Promotes the mental and emotional wellbeing of children, young people, and adults at risk.*

3. Scope

All children, young people, and adults at risk, regardless of age, disability, gender, racial heritage, religious belief and sexual orientation or identity have the right to protection from harassment, harm, or abuse. For the purposes of this advice a child is deemed to be any young person up to their 18th birthday.

The term an ‘Adult at Risk’ is defined by the Department of Health as a person aged 18 years or older who is or may be in need of community care services by reason of mental or other disability, age or illness; and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation’.

The Care Act 2014 defines ‘Adult at Risk’ as:

- *Having need for care and support (whether the Authority is meeting any of those needs).*
- *Is experiencing or is at risk of abuse or neglect.*
- *And because of those needs is unable to protect himself or herself against the abuse or neglect or the risk of it.*

The Equality Act 2010

The College Group is committed to safeguarding the protected characteristics as identified by the Equality Act 2010. These are age, disability (which includes mental health and people diagnosed as clinically obese), race, religion or belief, sex, sexual orientation, gender reassignment (people who are having or who have had a sex change, transvestites and transgender people), marriage and civil partnerships and pregnancy and maternity.

Respecting the rights of children, young people, and adults at risk

The College Group recognises the expectation that all children, young people, and adults at risk have rights that need to be respected as identified by the Human Rights Act. The College Group will commit to meet these rights by:

- Keeping children, young people, and adults at risk as fully informed as possible.
- Providing clear and detailed information.
- Explaining interventions and support in a way they can understand and in a format that is accessible to them.
- Treating children, young people, and adults at risk with dignity and respect.

All members of the College Group community, including staff paid and unpaid, College governors, students, contracted and franchised staff, are responsible for safeguarding and promoting the welfare of children, young people and adults at risk and will be made aware of the College Safeguarding and Child Protection Policy and Procedures.

Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:

- protecting children from maltreatment;
- preventing impairment of children's health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- taking action to enable all children to have the best outcomes.

The learning environment will be one in which children, young people and adults at risk feel valued and respected, and are encouraged and supported through the curriculum, support, work experience and training areas to raise any concerns they have about their own safety and welfare. Children have a right to feel safe and secure, they cannot learn effectively unless they do so.

Disclosures about abuse or neglect and allegations against persons in a position of trust made by a child, young person or adult at risk must always be taken seriously and reported in line with the College Group procedures, and with due regard to the privacy of the child, young person or adult at risk and their family.

Safeguarding children, young people and adults at risk procedures provide a clear framework for raising concerns or worries about a child, young person or adult at risk and should be read and understood by all the College Group community.

All staff have a role in the prevention of harm and abuse and an equal responsibility to act immediately on any suspicion or disclosure that may indicate a child is at risk of harm, either in the College or in the community, considering **contextual safeguarding***, in accordance with statutory guidance.

We acknowledge that working in partnership with other agencies protects children and reduces risk and so we will engage in partnership working to protect and safeguard children.

Whilst the College will work openly with parents/carers as far as possible, it reserves the right to contact Social Care or the police, without notifying parents if this is believed to be in the child's best interests.

Supporting Students

We recognise that the College Group may provide a safe place and the only stability in the lives of children who have been abused or who are at risk of harm. We recognise that a child who is abused or witnesses abuse and/or violence may feel helpless and humiliated, may blame themselves, and find it difficult to develop and maintain a sense of self-worth. We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn.

*See point 18 for further information on Contextual Safeguarding

The College Group makes a commitment to support all students:

- We will promote a caring, safe, and positive environment within the College.
- We will encourage self-esteem and self-assertiveness, through the curriculum and through positive relationships within the College Group communities.
- We will ensure children are taught to understand and manage risk through personal, social, health and economic education and Relationship and Sex Education (RSE) in KS4 Delivery. This includes online and social media safety.
- We will be responding sympathetically to any requests for time out to deal with distress and anxiety.
- We will offer details of helplines, counselling, or other avenues of external support.
- We will liaise and work in partnership with other support services and agencies involved in Early Help Assessment and the safeguarding of children.
- We will notify Social Care immediately if there is a significant concern.
- We will provide continuing support to a student about whom there have been concerns who leaves the College by ensuring that information is shared under confidential cover to the child's new setting and ensure the College records are forwarded as a matter of priority and within statutory timescales.
- We will provide a tutorial programme and other educational events and activities that enable students to safeguard themselves and others.

4. Policy Aims

To demonstrate the College Group's commitment regarding safeguarding, child and adult at risk protection and to building a 'culture of safety' in which students are protected from abuse and harm in all areas of college activity. Safeguarding and promoting the welfare of children is **everyone's responsibility**. Everyone who encounters children, and their families and carers have a role to play in safeguarding children. To fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, always, what is in the **best interests** of the child. The welfare of the child is paramount. This good practice extends to all students who study at the college.

To ensure that all staff working within our College Group who have substantial access to children have been checked as to their suitability, including verification of their identity, qualifications, and a satisfactory DBS check (according to KCSIE guidance), and a single central record is kept for audit.

We comply with the Disqualification under the Childcare Act 2006 guidance issued in August 2018. Applicants for posts within the setting are clearly informed that the positions are subject to the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (Amendment) (England and Wales) Order 2013. Candidates are informed of the need to carry out 'enhanced disclosure' checks with the Disclosure & Barring Service before posts can be confirmed. Where applications are rejected because of information that has been disclosed, applicants have the right to know and to challenge incorrect information.

We abide by Ofsted requirements in respect of references and Disclosure & Barring Service checks for staff and volunteers, to ensure that no disqualified person or unsuitable person works at the setting or has access to the child, young person or adult at risk.

We take security steps to ensure that we have control over who comes into the setting so that no unauthorised person has unsupervised access to the children, young people, or adult at risk.

We have procedures for recording the details of visitors to the College Group.

All adults working with or on behalf of children, young people and adults at risk have a responsibility to safeguard and promote their welfare and wellbeing.

To raise the awareness of all teaching and non-teaching staff of their responsibilities to safeguard children through identifying and reporting possible cases of abuse. All staff will be informed of their responsibilities to be alert to the signs of abuse. Any concerns should be shared with the designated members of staff for safeguarding. All staff will be encouraged to maintain an attitude that 'it could happen here'.

The Designated Safeguarding Lead (DSL) and Deputy DSLs (DDSL) will receive refresher training at least every two years and will take part in regular training activity related to safeguarding themes as ongoing CPD.

All other staff working at the college will receive safeguarding training every 2 years which will include an online safeguarding course and Working Together to Safeguard Children, along with regular updates on safeguarding topics.

Staff will be provided with relevant information on a need-to-know basis about individual children, young people, and adults at risk to keep them be vigilant to any specific needs.

When a complex safeguarding referral is identified by any staff member within the organisation, there will be an opportunity to have safeguarding reflection with the Designated Safeguarding Lead or Deputy.

DSLs and DDSLs will receive monthly formal supervision and ongoing reflection on practice, through a model of group, individual and peer reflection sessions.

5. Safe College, Safe Staff

We will ensure that:

The College operates a safer recruitment procedure that includes statutory checks on staff suitability to work with children. CVs are only accepted alongside a full application form. As part of the shortlisting process the college carries out an online search as part of its due diligence on the shortlisted candidates, to identify any incidents or issues that have happened and are publicly available online, which the college might want to explore with the applicant at interview.

All staff receive information about the College's safeguarding arrangements, the College's safeguarding statement, Staff Code of Conduct, Safeguarding and Child Protection Policy, the role and names of the Designated Safeguarding Lead and the Deputy DSLs and Keeping Children Safe in Education Part 1 and Annex A.

All staff receive safeguarding and child protection training at induction in line with advice from Surrey and Croydon Safeguarding Children Partnership which is regularly updated and receive safeguarding and child protection updates (for example, via email, e-bulletins and staff meetings), as required, but at least annually.

All members of staff are trained in and receive regular updates in online safety and reporting concerns.

All staff and governors have regular safeguarding and child protection awareness training, updated by the DSL as appropriate, to maintain their understanding of the signs and indicators of abuse.

The Safeguarding and Child Protection Policy is made available via the College websites and that parents/carers are made aware of this policy.

We provide a coordinated offer of Early Help Assessment when additional needs of children are identified and contribute to early help arrangements and inter-agency working and plans.

Our lettings policy will seek to ensure the suitability of adults working with children on College sites at any time.

Community users organising activities for children are aware of the College's Safeguarding and Child Protection Policy, guidelines, and procedures.

The name of the Designated Safeguarding Lead and Deputy DSLs are clearly advertised in the College with a statement on how to contact them.

All visitors will receive a Safeguarding leaflet that states how safeguarding concerns can be reported, explaining the College's role in referring and monitoring cases of suspected harm and abuse.

All staff will be given a copy of Part 1 and Annex A of Keeping Children Safe in Education 2022 and will sign to say they have read and understood it. This applies to the Governing Body in relation to Part 2 of the same guidance.

6. Roles and Responsibilities

6.1 All College Staff:

Should be aware that children and young people may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children and young people may feel embarrassed, humiliated, or are being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child, young person or adult at risk. Detailed information on statutory assessments can be found in Chapter 1 of Working Together to Safeguard Children. It is important that staff determine how best to build trusted relationships with children and young people which facilitate communication. Staff have a key role to play in identifying concerns early and in providing help for students.

To achieve this, they will contribute to and support colleagues to:

- Provide a safe environment in which students can learn.
- Establish and maintain an environment where students feel secure, are encouraged to talk and are listened to.
- Know who the DSL and DDSs are and know how to contact them.
- Provide a safe space for LGBTQ+ students to speak out or share their concerns with staff.
- Ensure students know that there are adults in the College who they can approach if they are worried or have concerns.
- Be aware that mental health problems can, in some cases, be an indicator that a student has suffered or is at risk of suffering abuse, neglect, or exploitation.

Only appropriately trained professionals will attempt to make a diagnosis of a mental health problem. Staff however, are well placed to observe students day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Where students have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences (ACEs), this can have a lasting impact throughout childhood, adolescence and into adulthood. Staff are aware of how these students' experiences, can impact on their mental health, behaviour, and education.

If staff have a mental health concern about a student that is also a safeguarding concern, immediate action will be taken, following our and procedure and College's Safeguarding and Child Protection Policy by contacting the DSL or DDSL.

- Plan opportunities within the curriculum for students to develop the skills they need to assess and manage risk appropriately and keep themselves safe.
- Attend training in order to be aware of and alert to the signs of abuse.
- Maintain professional curiosity and an attitude of "it could happen here" with regards to safeguarding.
- Know how to respond to a student who discloses harm or abuse following training of 'Working Together to Safeguard Children' (2018), and 'What to do if you are worried a child is being Abused' (2015).
- Record their concerns if they are worried that a child is being abused and report these to the DSL immediately that day. If the DSL is not contactable immediately a Deputy DSL should be informed.
- Utilise the college electronic referral system CPOMS to refer safeguarding or welfare concerns.
- Be prepared to refer directly to the Multi Agency Partnership (MAP) and Children Services and the police if appropriate, if there is a risk of significant harm and the DSL or DDSL is not available.
- Follow the allegations procedures if the disclosure is an allegation against a member of staff.
- Follow the procedures set out by the Surrey and Croydon Safeguarding Children Partnership and take account of guidance issued by the Department for Education.
- Provide support for children subject to Early Help Assessment, Child in Need or Child Protection that is in keeping with their plan.
- Treat information with confidentiality but never promising to "keep a secret". Notify the DSL or DDSL of any child on a child protection plan or child or in need plan or Child, Looked After or a student with an EHCP who has unexplained absence.
- Have an understanding of Early Help Assessment and be prepared to identify and support students who may benefit from early help.

- Identify students who may benefit from early help, liaising with the DSL or DDSL in the first instance. (Options may include managing support for the child internally via the College's support process or an Early Help Assessment). In some circumstances it may be appropriate for a member of staff to act as the lead professional in early help cases.
- Liaise with other agencies that support students and provide Early Help Assessment.
- Have an awareness of the role of the DSL, the College's Safeguarding and Child Protection Policy, and Staff Code of Conduct, and procedures relating to the safeguarding response for children who go missing from education.
- Be mindful that the OSC professional competencies state that staff should safeguard students' wellbeing and maintain public trust in the profession as part of their professional duties.
- Assist the Governing Body and Principal in fulfilling their safeguarding responsibilities set out in legislation and statutory guidance.

6.2 The Principal

In addition to the role and responsibilities of all staff the Principal will ensure that:

- The College fully contributes to inter-agency working in line with Working Together to Safeguard Children 2018 guidance.
- The Safeguarding and Child Protection Policy and procedures are implemented and followed by all staff.
- All staff are aware of the role of the designated safeguarding lead (DSL), including the identity of the DSL and any DDSLs.
- Sufficient time, training, support, funding, resources, including cover arrangements where necessary, is allocated to the DSL and DDSLs to carry out their role effectively, including the provision of advice and support to staff on child welfare and child protection matters, to take part in strategy discussions/meetings and other inter-agency meetings and/or support other staff to do so; and to contribute to the assessment of children.
- Opportunities are provided for a co-ordinated offer of Early Help Assessment when additional needs of children are identified.
- Deputy DSLs are trained to the same standard as the DSL and the role is explicit in their job description.
- Adequate and appropriate DSL cover arrangements are in place for any out of hours/out of term activities arranged by the college.
- Where there is a safeguarding concern that the child's wishes, and feelings are considered when determining what action to take and what services to provide.
- Child-centred systems and processes are in place for students to express their views and give feedback.

- There is a culture that recognises and manages low level concerns, that all staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the public interest disclosure procedures.
- Students are provided with opportunities throughout the curriculum to learn about safeguarding, including keeping themselves safe online.
- Allegations or concerns against staff are dealt with in accordance with guidance from the Department for Education (DfE), Surrey and Croydon Safeguarding Children Partnership (SSCP) and Surrey and Croydon County Councils.
- Statutory requirements are met to make a referral to the Disclosure and Barring Service and additionally in the case of teaching staff the Teacher Regulation Agency and LADO where they think an individual has engaged in conduct that harmed (or is likely to harm) a child; or if the person otherwise poses a risk of harm to a child.

6.3 The Designated Safeguarding Lead:

In addition to the role and responsibilities of all staff the DSL will:

- Under the direction of the Principal, hold responsibility across college for safeguarding and child and adult at risk protection.
- Lead and manage a team of Deputy DSLs and Safeguarding Advisors.
- Lead on the Prevent duty and manage referrals.
- Lead on the introduction and embedding of supervision for DDSLs and other staff as appropriate.
- Support the development and review of safeguarding policies and procedures ensuring that these are regularly updated, shared and implemented.
- Attend DSL refresher training a minimum of every two years.
- Attend training on a range of safeguarding topics to keep up to date and to share information with staff and students as appropriate.
- Keep knowledge and understanding up to date via online bulletins, attending DSL forums and taking time to read safeguarding legislation and developments.
- Act as a source of support, advice and expertise for safeguarding within the college group.
- Act as a central point of contact for safeguarding and child and adult at risk protection matters.
- Lead on high priority safeguarding referrals which are related to disclosure of abuse.
- Take responsibility for the embedding of CPOMs the college online safeguarding recording and reporting system.
- Ensure the storage of secure and accurate records meets legal and statutory requirements.
- Monitor Smoothwall and OSC Connect alerts and ensure these are investigated with appropriate interventions as required.
- Provide accurate and timely safeguarding reports for a range of audiences.
- Lead on regular safeguarding training and professional development for all college staff and ensure that they have the up-to-date information required to carry out their role and responsibilities
- Lead on the management of high-level cases where a crime has been committed that requires police involvement.

- Keep the Principal regularly updated about the progress of those students who are assessed as high priority safeguarding cases and at risk
- Attend Child Protection, Child in Need and other statutory review meetings and provide progress reports as required.
- Understand the process for providing early help and statutory intervention.
- Work closely with safeguarding representatives from feeder schools and ensure a smooth and supported transition for those aged 14-16 from school to college.
- Provide advice and support to staff on protecting students from the dangers of radicalisation
- Work with college managers to promote online safety.
- Support the Head of Teaching and Learning with planning the delivery of tutorial themes related to safeguarding.
- Ensure programme handbooks are regularly updated with current safeguarding and Prevent information
- Ensure safeguarding leaflets for students, staff and visitors are updated annually.
- Ensure that students know how and where to go to access safeguarding support.
- Ensure that staff know who to contact when they have safeguarding concerns.
- Inform the Executive Director of HR of any allegation made against a member of staff
- Oversee the development of the college online well-being hub.
- Lead and manage any cases where emergency services are required to attend the college.
- Work closely with College staff to promote positive student behaviour, restorative conversations and resilience.

6.4 The Deputy Designated Safeguarding Lead(s)

In addition to the role and responsibilities of all staff the Deputy DSL will:

- Be trained to the same standard as the Designated Safeguarding Lead.
- Provide support and capacity to the DSL in carrying out delegated activities of the DSL; however, the lead responsibility of the DSL cannot be delegated.
- Carry out, in the absence of the DSL, the activities necessary to ensure the ongoing safety and protection of children. In the event of the long-term absence of the DSL the deputy will assume all the functions above.

6.5 All members of The Governing Body understand and fulfil their responsibilities to ensure that:

- Governors are aware of their obligations under the Human Rights Act 1998 21, the Equality Act 2010 22 (including Public Sector Equality Duty 23), and the local multi-agency safeguarding arrangements.
- The College has effective safeguarding policies and procedures including a Safeguarding and Child Protection Policy, a Staff Behaviour Policy or Code of Conduct, a Behaviour Policy and a response to children who go missing from education.
- Policies are consistent with Surrey Safeguarding Children Partnership (SSCP) and Croydon Safeguarding Children Partnership (CSCP) and statutory requirements, are

reviewed annually and that the Safeguarding and Child Protection policy is available on the College website.

- The SSCP and CSCP is informed in line with local requirements about the discharge of duties via the annual safeguarding audit.
- The College operates a safer recruitment procedure that includes statutory checks on staff suitability to work with children and disqualification by association regulations and by ensuring that there is at least one person on every recruitment panel who has completed safer recruitment training, if there is not a panel conducting interviews then the individual will have completed the safer recruitment training.
- At least one member of the governing body has completed safer recruitment training to be repeated every five years.
- The governing body should ensure all governors and trustees receive appropriate safeguarding training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves and support the delivery of robust whole college approach to safeguarding.
- Governors should update their training regularly.
- Staff have been trained appropriately and this is updated in line with statutory guidance.
- All staff have read Keeping Children Safe in Education (2022) Part 1 and Annex A and mechanisms are in place to assist staff in understanding and discharging their roles and responsibilities as set out in the guidance.
- Regularly review the effectiveness of IT filters and monitoring systems and ensure the leadership team and relevant staff are:
 - aware of and understand the systems in place
 - manage them effectively
 - know how to escalate concerns when identified
- Students are taught about safeguarding (including online safety) as part of a broad and balanced curriculum covering relevant issues through personal, social, health and economic education and relationships and sex education (RSE) in KS4.
- Safeguarding training for staff, including online safety training and the requirement to ensure students are taught about safeguarding, is considered as part of the whole College safeguarding approach.
- All staff including temporary staff and volunteers are provided with the College's safeguarding and child protection policy and staff behaviour policy or Code of Conduct.
- The College has procedures for dealing with allegations of abuse against staff (including the Principal and CEO), volunteers and against other children and that a referral is made to the DBS and/or the Teaching Regulation Agency (as applicable) if a person in regulated activity has been dismissed or removed due to safeguarding concerns or would have had they not resigned.
- A nominated governor for safeguarding is identified.

- A member of the senior leadership team has been appointed as the Designated Safeguarding Lead (DSL) who will take lead responsibility for safeguarding and child protection and that the role is explicit in the role holder's job description.
- On appointment, the DSL and deputy(s) undertake interagency training (SSCP Foundation Modules 1&2) and also undertake DSL 'New to Role' and 'Update' training every two years as well as attending DSL network events, to refresh knowledge and skills.
- The governors, proprietors and the College will ensure application filters and monitoring systems are in place to safeguard children online.
- The College will comply with DfE and the Surrey and Croydon County Council Children Missing Education requirements.
- The College will comply with regular data returns requested by the Local Authority, regarding all students attending alternative provision and/or on a reduced or modified timetable.
- Appropriate online filtering and monitoring systems are in place.
- Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.
- Governing bodies and proprietors will ensure they have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.
- Enhanced DBS checks (without barred list checks unless the governor is also a volunteer at the College) are in place for all Governors.
- The College adheres to the Five-Day Rule and ensure that when a child leaves the College, DSL should ensure their child protection files are transferred to the new school or college as soon as possible and within 5 days for an in-year transfer or within the first 5 days of the start of a new term to allow the new college or school to have support in place for when the child arrives.
- Safeguarding practice is constantly reviewed and any weaknesses or areas for development are actioned immediately.

7. Confidentiality, Sharing and Withholding Information

All matters relating to child protection will be treated as confidential and only shared as per the [Information sharing advice for safeguarding practitioners](#)

The College will refer to the guidance in the data protection: toolkit for schools - <https://www.gov.uk/government/publications/data-protection-toolkit-for-schools> which supports schools/Colleges with data protection activity, including compliance with the GDPR.

Information will be shared with staff within the College who 'need to know'.

Relevant staff have due regard to Data Protection principles which allow them to share (and withhold) information.

Information sharing is vital in identifying and tackling all forms of abuse. Colleges have a clear power to share, hold and use information for this purpose. All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the Data Protection Act 2018 and General Data Protection Regulations are not a barrier to sharing information where a failure to do so would place a child at risk of harm.

There is a lawful basis for child protection concerns to be shared with agencies who have a statutory duty for child protection.

All staff must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or wellbeing. However, staff are aware that matters relating to child protection and safeguarding are personal to children and families, in this respect they are confidential and the Principal or DSLs will only disclose information about a child to other members of staff on a need to know basis.

All staff will always undertake to gain parent/carers consent to refer a child under 16 to Social Care unless to do so could put the child at greater risk of harm or impede a criminal investigation.

8. Child Protection Procedures

The following procedures apply to all staff working in the College and will be covered by training to enable staff to understand their role and responsibility.

The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are concerned that a student is being harmed or abused or is at risk of harm or abuse.

The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

All staff are aware that students with disabilities, special needs or with language delay may be more likely to communicate concerns with behaviours rather than words.

If a member of staff suspects abuse, spots signs or indicators of abuse, or they have a disclosure of abuse made to them they must:

1. Make an initial record of the information related to the concern.
2. Report it to the DSL immediately.
3. The DSL will consider if there is a requirement for immediate intervention, however urgent attention should not be delayed if the DSL is not immediately available.
4. Make an accurate record (which may be used in any subsequent court proceedings) as soon as possible and within 24 hours of the occurrence, of all that has happened, including details of: Dates and times of their observations; Dates and times of any discussions in which they were involved; Any injuries Explanations given by the child / adult Rationale for decision making and action taken; Any actual words or phrases used by the child.
5. The records must be signed and dated by the author or/equivalent on electronic based records

6. In the absence of the DSL or their Deputy, staff must be prepared to refer directly to C-SPA or SPOC (and the police if appropriate) if there is the potential for immediate significant harm.

Following a report of concerns the DSL must:

1. Using the SSCP or CSCP Levels of Need, decide whether or not there are sufficient grounds for suspecting significant harm, in which case a request for support must be made to the C-SPA or SPOC and the police if it is appropriate.
2. Normally the College should try to discuss any concerns about a child's welfare with the family and where possible to seek their agreement before making a referral to the C-SPA or SPOC. However, this should only be done when it will not place the child at increased risk or could impact a police investigation. The child's views should also be considered.

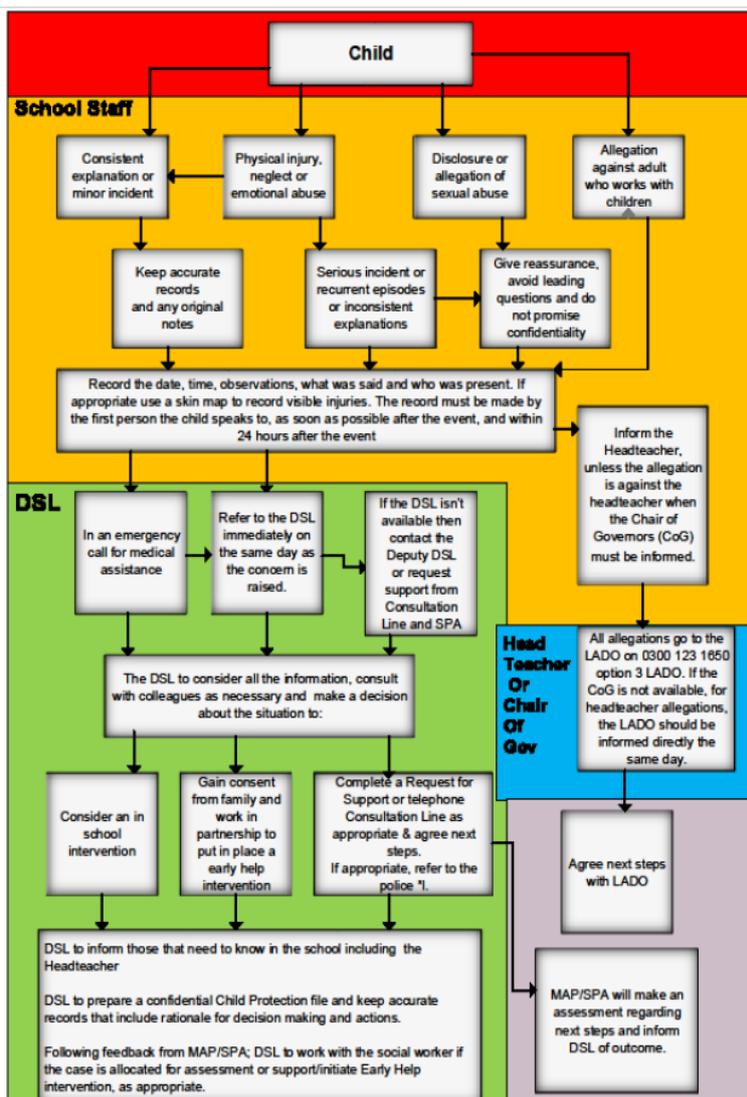

If there are grounds to suspect a child is suffering, or is likely to suffer, significant harm or abuse the DSL must contact the C-SPA or SPOC. By sending a Request for Support Form by secure email to: cspa@surreycc.gov.uk contact the C-SPA consultation line on 0300 470 9100 to discuss the concerns. For Croydon for urgent child protection matters requiring immediate attention: 0208 255 2888 and Email SPOC referrals to childreferrals@croydon.gov.uk. If a child is in immediate danger and urgent protective action is required, the Police (dial 999) must be called. The DSL must also notify the C-SPA of the occurrence and what action has been taken.

3. If the DSL feels unsure about whether a referral is necessary, they can phone the C-SPA to discuss concerns. For Croydon if advice is required contact the SPOC Professionals Consultation Line 0208 726 6464.
4. If there is not a risk of significant harm, the DSL will either actively monitor the situation or consider offering Early Help Assessment.
5. Where there are doubts or reservations about involving the child's family, the DSL should clarify with the C-SPA or SPOC consultation line or the police whether the parents should be told about the referral and, if so, when and by whom. This is important in cases where the police may need to conduct a criminal investigation.
6. When a student is in need of urgent medical attention and there is suspicion of abuse the DSL or their Deputy should take the child to the accident and emergency unit at the nearest hospital, having first notified the C-SPA or SPOC.

The DSL should seek advice about what action the C-SPA or SPOC will take and about informing the parents, remembering that parents should normally be informed that a child requires urgent hospital attention.

7. The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police. The DSL should also be made aware.

Child Protection Procedures Flowchart

9. Dealing with disclosures

All staff

A member of staff who is approached by a student should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they may need to pass information to other professionals to help keep the child or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English.

It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

All staff should know who the DSL is and who to approach if the DSL is unavailable.

All staff have the right to make a referral to the C-SPA, SPOC or Police directly and should do this if, for whatever reason, there are difficulties following the agreed protocol, for example,

they are the only adult on the College premises at the time and have concerns about sending a student home.

All staff should be able to reassure victims that they are being taken seriously and that they are not creating a problem by reporting abuse, sexual violence or sexual harassment. They should never be made to feel ashamed for making a report.

Guiding principles, the six Rs

Receive

- Listen to what is being said, without displaying shock or disbelief
- Accept what is said and take it seriously
- Make a note of what has been said as soon as practicable

Reassure

- Reassure, but only so far as is honest and reliable
- Do not make promises you may not be able to keep e.g. 'I'll stay with you' or 'everything will be alright now' or 'I'll keep this confidential'
- Do reassure, for example, you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'

Respond

- Respond only as far as is necessary for you to establish whether you need to refer this matter, but do not interrogate for full details
- Do not ask 'leading' questions i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court
- Do not ask why something has happened.
- Do not criticize the alleged perpetrator; the student may care about him/her, and reconciliation may be possible
- Do not ask them to repeat it all for another member of staff.
- Explain what you must do next and whom you must talk to. Reassure the student that it will be a senior member of staff

Record

- If possible, make some very brief notes at the time, and write them up as soon as possible
- Keep your original notes on file
- Record the date, time, place, person/s present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words
- If appropriate, complete a body map to indicate the position of any noticeable bruising
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'

Remember

- Support the child: listen, reassure, and be available
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues
- Get some support for yourself if you need it

Review (led by DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied?
- Is further training required?

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. The member of staff should be informed by the DSL what has happened following a report being made. If they do not receive this information, they should seek it out.

If they have concerns that the disclosure has not been acted upon appropriately, they might inform the Principal or Safeguarding Governor of the College or may contact the C-SPA or SPOC.

Receiving a disclosure can be upsetting for the member of staff and staff will receive reassurance and, in some cases, additional counselling might be needed, and staff should be encouraged to recognise that disclosures can have an impact on their own emotions.

10. Safeguarding concerns and allegations against adults who work with children

There are two levels of allegation/concern:

1. Allegations that may meet the harms threshold.
2. Allegation/concerns that do not meet the harms threshold 'low level concerns'

Procedure

This procedure should be used in all cases of allegations that may meet the harms threshold in which it is alleged a member of staff, including supply staff or volunteer, or another adult who works with children has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he or she would pose a risk of harm to children
- behaved or been involved in an incident outside of a setting which did not involve children but could impact on their suitability to work with children

In dealing with allegations or concerns against an adult, staff must:

Report any concerns about the conduct of any member of staff or volunteer to the Principal immediately.

If an allegation is made against the Principal or CEO the concerns need to be raised with the Chair of Governor as soon as possible. If the Chair of Governors is not available, then the LADO should be contacted directly.

There may be situations when the Principal, CEO, or Chair of Governors will want to involve the police immediately if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence.

Once an allegation has been received by the Principal, CEO, or Chair of Governors they will contact the LADO (as part of their mandatory duty) immediately and before taking any action or investigation.

For Surrey call 0300123 1650 option 3, LADO Email: LADO@surreycc.gov.uk

For Croydon call 0208 255 2889, Email: lado@croydon.gov.uk

Following consultation with the LADO inform the parents of the allegation unless there is a good reason not to.

In liaison with the LADO, the College will determine how to proceed and if necessary, the LADO will refer the matter to Children's Social Care and/or the police. If the matter is investigated internally, the LADO will advise the College to seek guidance from local authority colleagues in following procedures set out in part 4 of 'Keeping Children Safe in Education' (2021) and the SSCP and CSCP procedures.

A low level concern is any behaviour which is inconsistent with the staff code of conduct, which does not meet the allegations threshold, or not considered serious enough to refer to the LADO. Examples could include:

- Being over friendly with students
- Taking photographs of students on their mobile phone
- Using inappropriate language

In dealing with low level concerns against an adult, staff must report to the Head of HR who will decide the appropriate course of action.

11. Categories of abuse

What is child abuse?

The following definitions are taken from Working Together to Safeguard Children HM Government (2018). In addition to these definitions, children can also be abused by being sexually exploited, honour based violence, forced marriage or female genital mutilation. To support the local context, all staff have access to the SSCP Levels of Need or CSCP Levels of Need.

Children includes everyone under the age of 18.

11.1 Physical abuse

This may involve hitting, shaking, throwing, burning, or scalding, drowning, suffocating, or otherwise causing physical harm to a child, young person, or adult at risk. This also includes rough handling or unnecessary physical force either deliberate or unintentional, misuse of medication, restraint, or inappropriate sanctions.

Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induce illness in a child, young person, or adult at risk.

11.2 Emotional abuse

This is the persistent emotional ill treatment of a child, young person, or adult at risk, such as to cause severe and persistent effects on the child, young person, or adult at risk's emotional development. This includes emotional abuse, threats of harm or abandonment, deprivation of contact, humiliation, blaming, controlling, intimidation, coercion, harassment, verbal abuse, isolation or withdrawal from services or supportive networks.

It may involve conveying to a child, young person, or adult at risk that they are worthless and unloved, inadequate, or valued only so far as they meet the needs of another person. It may feature age or developmentally inappropriate expectations being imposed on the child, young person, or adult at risk. These may include:-

- Interactions which are beyond the child, young person, or adult at risk's developmental capability.
- Over protection and limitation of exploration and learning, or preventing the child, young person, or adult at risk from participating in normal social interaction. It may involve seeing or hearing the ill treatment of another. It may involve causing the child, young person, or adult at risk to frequently feel frightened or in danger, or the exploitation or corruption of a child, young person, or adult at risk.

11.3 Neglect and Acts of Omission

This is the persistent failure to meet the child, young person or adult at risk's basic physical and/or psychological needs, likely to result in the serious impairment of the child, young person or adult at risk's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child, young person or adult at risk is born, neglect may involve a parent or carer failing to provide adequate food and clothing, shelter including exclusion from home or abandonment, failure to protect a child, young person or adult at risk from physical and emotional harm or danger, failure to ensure adequate supervision including the use of inadequate care or failure to ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to a child, young person, or adult at risk's basic emotional needs. It can also be neglect in accessing the appropriate support to address Special Education Needs & Disabilities (SEND). Fabricated and induced illness can also be neglect. It is important to note that neglect is rarely a stand-alone issue and will overlap with other concerns.

11.4 Sexual abuse

This includes rape and sexual assault or sexual acts to which the child, young person or adult at risk has not consented, or could not consent to, or was pressured into consenting. This involves forcing or enticing a child, young person, or adult at risk to take part in sexual activities, including prostitution whether the child, young person or adult at risk is aware of what is happening. The activities may involve physical contact, including penetrative (e.g. rape) or non-penetrative acts. They may include non-contact activities, such as involving a child, young person or adult at risk in looking at, or in the production of, pornographic materials, or watching sexual activities, or encouraging a child, young person or adult at risk to behave in sexually inappropriate ways.

Sexual abuse can occur between people of the same sex and it can also occur within a marriage or any long-term relationship. A relationship of trust should exist between a member of staff or a volunteer and the person for whom they are caring, it would be seen as a betrayal of that trust, and therefore abusive, for that member of staff or volunteer to have a sexual relationship with the person they are caring for.

12. Further Safeguarding Categories

12.1 Sexual Violence and Sexual Harassment

The college follow statutory guidance in Keeping Children Safe in Education 2022, where sexual violence and sexual harassment has now been incorporated into the guidance rather than being a standalone document.

The college recognises that sexual violence and sexual harassment can occur between two or more children of any age and sex, from primary through to secondary stage and into college. It can occur also through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face-to-face (both physically and verbally) and are never acceptable. The college takes action to ensure that;

- there is a zero-tolerance approach to sexual violence and sexual harassment, that it is never acceptable, and it will not be tolerated. It should never be passed off as “banter”, “just having a laugh”, “a part of growing up” or “boys being boys”. We recognise that failure to do so can lead to a culture of unacceptable behaviour, an unsafe environment and a culture that normalises abuse, leading to children accepting it as normal and not coming forward to report it
- we recognise, acknowledge, and understand the scale of harassment and abuse and that even if there are no reports it does not mean it is not happening, it may be the case that it is just not being reported
- challenge physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them. We know that children who are victims of sexual violence and sexual harassment may find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school or college.
- all victims are reassured that they are being taken seriously and that they will be supported and kept safe.

Responding to reports of sexual violence and sexual harassment

Staff taking the report will inform the DSL or the Deputy DSL immediately. Staff taking a report will never promise confidentiality.

Parents or carers should usually be informed (unless this would put the child at greater risk). If a child is at risk of harm, is in immediate danger, or has been harmed, a Request for Support will be made to the C-SPA or SPOC securely email: cspa@surreycc.gov.uk or SPOC@croydon.gov.uk. The need to call the police must also be considered and in the case of rape the police must be called.

Following a report, the DSL will make an immediate risk and needs assessment on a case-by-case basis.

The risk assessment will consider:

- The victim, especially their protection and support.
- The alleged perpetrator, their support needs, and any discipline action.
- All other children at the College.
- The victim and the alleged perpetrator sharing classes and space at College.
- The risk assessment will be recorded and kept under review.

Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the College’s approach to supporting and protecting students

Action: The DSL will consider:

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- Ages of the children involved.
- Developmental stages of the children.
- Any power imbalance between the children.
- Any previous incidents.
- Ongoing risks.
- Other related issues or wider context.

Options:

Manage internally

Early Help Assessment Request for support to the C-SPA or SPOC or report to the police (generally in parallel with a request for support to the C-SPA or SPOC)

Ongoing Response:

The DSL will manage each case individually and will ensure the risk assessment is reviewed regularly with relevant partner agencies, for example the Police and Children's Social Care.

Where there is a criminal investigation into a rape, assault by penetration or sexual assault, the alleged perpetrator should be removed from any classes they share with the victim.

The DSL will consider how best to keep the victim and perpetrator a reasonable distance apart on College premises and on transport where appropriate. Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, the College will take suitable action.

In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of discipline and may lead to the view that allowing the perpetrator to remain in the same College would seriously harm the education or welfare of the victim (and potentially themselves and other students).

Where a criminal investigation into sexual assault leads to a conviction or caution, the College will, if it has not already, consider any suitable sanctions considering their behaviour policy, which may include consideration of permanent exclusion.

Where the perpetrator is going to remain at the College, the Principal should continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on College premises and transport.

The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases. The victim, alleged perpetrator and any other students and adults affected will receive appropriate support and safeguards on a case-by-case basis.

The College will take any disciplinary action against the alleged perpetrator in accordance with the College behaviour policy.

The College recognises that taking disciplinary action and providing appropriate support are not mutually exclusive actions and will occur at the same time if necessary.

12.2 Grooming

Grooming is when someone builds an emotional connection with a child, young person, or adult at risk to gain their trust for the purposes of sexual abuse or exploitation. Children, young people, or adults at risk can be groomed online or in the real world by a stranger or by someone they know, for example a friend, a family member or a professional. Groomers may be male or female. They could be any age. Many children, young people or adults at risk do not understand that they have been groomed or that what has happened to them is abuse.

12.3 Child Sexual Exploitation

Child sexual exploitation (CSE) is a form of child sexual abuse. It involves exploitative situations, contexts and relationships where young people receive something (for example food, accommodation, drugs, alcohol, gifts, money or in some cases simply affection) as a result of engaging in sexual practices. Sexual exploitation can take many forms ranging from 'consensual' relationships where sex is exchanged for affection or gifts, to serious crime by gangs and groups. What makes it exploitation is an imbalance of power in the relationship. The perpetrator always holds some kind of power over the victim which increases as the exploitative relationship develops. Sexual exploitation involves varying degrees of coercion, intimidation, or enticement, including unwanted pressure from peers to have sex, sexual bullying including cyber bullying and grooming. It may involve physical contact or non-contact activities. It can occur over time or be a one-off occurrence. It may happen without the child's knowledge, for example through sharing images of them on social media.

12.4 Financial or Material Abuse

This includes theft, fraud, exploitation, pressure in connection with wills, property, enduring power of attorney, or inheritance or financial transactions, or the inappropriate use, misuse or misappropriation of property, possessions, or benefits.

12.5 Discriminatory Abuse

The College is committed to safeguarding from discriminatory abuse, harassment, or similar treatment to those identified by the Equality Act 2010. These are age, disability (which includes mental health and people diagnosed as clinically obese), race, religion or belief, sex, sexual orientation, gender reassignment (people who are having or who have had a sex change, transvestites and transgender people), marriage and civil partnerships and pregnancy and maternity.

12.6 Self-Neglect

This is not a direct form of abuse but staff need to be aware of it in the general context of risk assessment/risk management and to be aware that they may owe a duty of care to a vulnerable individual who places him/herself at risk in this way.

12.7 Forced Marriage

A clear distinction must be made between a forced and an arranged marriage. In arranged marriages, the families of both spouses take a leading role in choosing the marriage partner but the choice whether to accept the arrangement remains with the young people. In forced marriage, one or both spouses do not consent to the marriage or consent is extracted under duress. Duress includes both physical and emotional pressure.

12.8 Domestic Abuse and Violence

Domestic abuse is any incident pattern of incidents of controlling, coercive, threatening behaviour, violence, or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to:

- Psychological
- Physical

- Sexual
- Financial
- Emotional

Children can be victims of domestic abuse. It is important to note that if a child, young person, or adult at risk is a witness of domestic violence this must be deemed as abuse. Teenage relationship abuse which includes students under the age of 16 must be deemed as a safeguarding issue. Domestic abuse can have a detrimental and long-term impact on a child's or young person's health, wellbeing, development and ability to learn.

12.9 Bullying and Online Bullying

This is covered in the Student Anti Bullying Policy and could be a safeguarding issue.

12.10 Female Genital Mutilation (FGM)

FGM is the practice of partially or totally removing the external genitals of girls or young women for non-medical purposes. It is illegal in the UK and is a form of child abuse with long-lasting consequences.

Section 5B of the Female Genital Mutilation Action 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18.

12.11 Honour-based Abuse

Honour based abuse (HBA) can be described as a collection of practices, which are used to control behaviour within families or other social groups to protect perceived cultural and religious beliefs and/or honour.

Such violence can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their honour code.

Honour based abuse might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion;
- want to get out of an arranged marriage; become involved with a boyfriend or girlfriend from a different culture or religion;
- want to get out of an arranged marriage;
- want to get out of a forced marriage
- wear clothes or take part in activities that might not be considered traditional within a particular culture.

It is considered a violation of human rights and may be a form of domestic and/or sexual abuse.

12.12 A Child Missing from Education

A child gone missing from education is a potential indicator of abuse or neglect. College staff will follow the Local Authority's procedures for dealing with children that go missing from education, particularly on repeated occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent risks of their going missing in the future. A student who fails to attend the KS4 provision for a continuous period of 10 days or more will be a safeguarding issue and will be referred to the Local Authority. A CLA who does not attend for 48 hours without notification will be deemed a safeguarding concern.

12.13 Child-on-Child Abuse

All staff will be made aware that children can abuse other children (often referred to as child-on-child abuse). It is more likely that girls will be victims and boys perpetrators, but all child-on-child abuse is unacceptable and will be taken seriously. It can happen in College, out of College, and online. Staff should understand the importance of challenging inappropriate behaviours between peers, and not dismiss sexual harassment as, for example, 'banter' as this can lead to a culture of unacceptable behaviours. Just because it is not reported does not mean it is not happening. If staff have any concerns, then they must inform the DSL or Deputy without delay. Staff must not view or forward illegal images of a child.

Child-on-child abuse is likely to include, but may not be limited to:

- **bullying** (including cyberbullying, prejudice-based and discriminatory bullying);
- **abuse in intimate personal relationships** between peers;
- **physical abuse** such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- **sexual harassment**, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse;
- **causing someone to engage in sexual activity without consent**, such as forcing someone to strip
- **upskirting**, which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm;
- **consensual and non-consensual sharing of nude and semi-nude images** and/or videos (also known as sexting)
- **initiation/hazing** type violence and rituals.
- **sexual violence**, such as rape, assault by penetration and sexual assault;

Where there has been a report of sexual violence and/or sexual harassment, the College Safeguarding Team should be informed immediately and will follow the College disclosure processes for both the alleged victim and the alleged perpetrator. The DSL/Deputy should make a risk and needs assessment. The assessment should consider:

- the victim, especially their protection and support;
- whether they may have been other victims;
- the alleged perpetrator (s); and
- all other students at the College, and any actions that may be necessary to protect them from future harm

When managing reports of sexual violence and/or sexual harassment the DSL/Deputy will consider four likely courses of action, on a case-by-case basis.

- Manage internally
- Refer to Early Help Assessment
- Refer to children's social care
- Report to the Police

It is important:

- to explain to students that the law is in place to protect rather than criminalise them
- to understand intra-familial harms and any necessary support for siblings following incidents
- to recognise the need for the College to be part of discussions with statutory safeguarding partners.

Further detailed information can be found in Keeping Children Safe in Education 2022.

12.14 Serious Violence, Modern Slavery and Trafficked Children

Child Criminal Exploitation (CCE), Child Sexual Exploitation (CSE) & Gangs. Both CCE and CSE are forms of abuse and both occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into criminal or sexual activity.

There are a number of areas in which young people are put at risk by gang activity, both through participation in, and as victims of, gang violence which can be in relation to their peers or to a gang-involved adult in their household.

A child who is affected by gang activity or serious youth violence may have suffered, or may be likely to suffer, significant harm through physical, sexual, and emotional abuse or neglect.

Teenagers can be particularly vulnerable to recruitment into gangs and involvement in gang violence.

This vulnerability may be exacerbated by risk factors in an individual's background, including being male, violence in the family, involvement of siblings in gangs, poor educational attainment, having been permanently excluded from school, having been involved in offending, or poverty or mental health problems.

Criminal exploitation of children is a typical feature of *county lines* criminal activity.

Key identifying features of involvement in *county lines* are when children are missing, when the victim may have been trafficked for transporting drugs, a referral to the National Referral Mechanism should be considered with Social Care and Police colleagues.

A child who is affected by gang activity, criminal exploitation or serious youth violence can be at risk of significant harm through physical, sexual, and emotional abuse. Girls may be particularly at risk of sexual exploitation.

The experience of girls who are criminally exploited can be very different to that of boys, and the indicators may not be the same.

Any concerns that a child is being or is at risk of being criminally exploited will be passed without delay to the DSL.

The College is aware there is a clear link between regular non-attendance at college and exploitation.

Staff will consider a child to be at potential risk in the case of regular non-attendance at college and make reasonable enquiries with the student and parents to assess this risk.

Other indicators, which may signal that students are at risk from, or are involved with serious violent crime include:

- increased absence from college,
- a change in friendships or relationships with older individuals or groups,
- a significant decline in performance,
- signs of self-harm or a significant change in wellbeing,
- or signs of assault or unexplained injuries.

- Unexplained gifts or new possessions could also indicate that young people have been approached by, or are involved with, individuals associated with criminal networks or gangs.

A request for support to the C-SPA or SPOC will be made when any concern of harm to a child because of gang activity including child criminal exploitation becomes known.

Any member of staff who has concerns that a child may be at risk of harm should immediately inform the DSL. The DSL will contact the C-SPA or SPOC. If there is concern about a child's immediate safety, the Police will be contacted on 999.

13. Private Fostering Arrangements

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents.

It applies to children under the age of 16 years old or 18 years old if the child **has a SEND**. Children looked after by the local authority or who are placed in residential schools, children's homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures and children may be privately fostered at any age. The College recognises that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases.

Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

By law, a parent, private foster carer, or other persons involved in making a private fostering arrangement must notify Children's Social Care immediately.

However, where a member of staff becomes aware that a student may be in a private fostering arrangement, they will raise this with the DSL and the DSL will notify the C-SPA or SPOC immediately.

14. Safeguarding Children, Young People and Adults at Risk's Mental Wellbeing.

The quality framework for mental health defines it as:

'The emotional and spiritual resilience which allows us to enjoy life and survive pain, disappointment and sadness. It is a positive sense of wellbeing and an underlying belief in our own, and others, dignity and worth.'

The College endorses the 1999 Mental Health Foundation Report Bright Futures defining children, young people and adults at risk who are mentally healthy as able to:

- Develop psychologically, emotionally, intellectually, and spiritually
- Initiate, develop and sustain mutually satisfying personal relationships
- Use and enjoy solitude
- Become aware of others and empathise with them
- Play and learn
- Develop a sense of right and wrong and
- Resolve (face) problems and setbacks and learn from them

There are different types of mental health problems that children, young people, and adults at risk experience. Common examples are depression, anxiety disorders, and substance misuse problems or psychotic disorders such as bipolar disorder. Children, young people, and adults at risk are particularly vulnerable at these times.

Risk factors that can exacerbate mental health problems, family and home life

Children, young people, and adults at risk are at an increased risk where there is family disruption and breakdown.

This can be expressed in several ways:

- Unclear and inconsistent discipline
- Difficulties by the family adapting to a child's, young person, or adult at risk's needs as they become adolescents
- Parental mental illness, criminality, alcoholism, substance misuse or personality disorder
- Domestic violence or abuse
- Poverty
- Bereavement, including the loss of friendship

15. Anti-Bullying/Online Bullying

Our college policy on anti-bullying is set out in a separate document and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures. All staff are aware that children with SEND and/or differences/ perceived differences are more susceptible to being bullied/victims of child abuse. We keep a record of known bullying incidents which is shared with and analysed by the governing body.

When there is 'reasonable cause to suspect that a student is suffering, or is likely to suffer, significant harm' a bullying incident should be addressed as a child protection concern.

If the anti-bullying procedures are seen to be ineffective, the Principal and the DSL will also consider child protection procedures. Pastoral education in tutorial regularly provides opportunities for students to understand bullying is wrong, its impact and how to deal with it.

16. Online Safety

The College has an online safety policy which explains how we try to keep students safe in college and how we respond to online safety incidents.

Students increasingly use electronic equipment daily to access the internet, share and view content and images via social media sites such as Facebook, twitter, Instagram, snapchat and voodoo and for online gaming.

Some adults and other children use these technologies to harm children. The harm might range from sending hurtful or abusive texts or emails, to grooming and enticing children to engage in extremist or sexual behaviour involving webcam photography or face-to-face meetings.

Students may also be distressed or harmed by accessing inappropriate material such as pornographic websites or those which promote extremist behaviour, criminal activity, suicide or eating disorders. Students are taught about online safety throughout the curriculum and all staff receive online safety training which is regularly updated.

17. Radicalisation, Extremism and Terrorism

The Prevent Duty for England and Wales (2015) under section 26 of the Counter Terrorism and Security Act 2015 places a duty on education and other children's services to have due regard to the need to prevent people from being drawn into terrorism.

Extremism is defined as 'vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas.

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious violence to a person/people; causes serious damage to property; or seriously interferes with an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious, or ideological cause.

Some students are at risk of being radicalised; adopting beliefs and engaging in activities which are harmful, criminal, or dangerous. This can happen both online and offline.

The College is clear that exploitation of vulnerable children and radicalisation should be viewed as a safeguarding concern and follows the Department for Education guidance for schools and childcare providers on preventing children and young people from being drawn into terrorism.

The College seeks to protect children and young people against the messages of all violent extremism including, but not restricted to, those linked to Islamist ideology, or to Far Right / Neo Nazi / White Supremacist ideology, Irish Nationalist and Loyalist paramilitary groups, and extremist Animal Rights movements.

College staff receive training to help identify early signs of radicalisation and extremism. Opportunities are provided in the curriculum to enable pupils to discuss issues of religion, ethnicity and culture and the College follows the DfE advice Promoting Fundamental British Values.

The College governors, the CEO, Principal, and the Designated Safeguarding Lead (DSL) will assess the level of risk within the College and put actions in place to reduce that risk.

The College will meet this obligation in the following ways:

Partnership

The College will have regular contact with the regional Prevent Coordinators to ensure up to date guidance on risk is provided to governors, senior leaders, and managers. The Information, Advice and Guidance will be shared with staff and students. The Designated Safeguarding Lead will act as the single point of contact and take responsibility for the strategic and operational delivery and to ensure regular liaison with the regional Prevent Coordinators and support referrals to Channel.

Prevent Action Plan

The Designated Safeguarding Lead will notify the regional Prevent Coordinator if risk is identified at the College and work to produce a Prevent action plan to address risks identified.

Prevent awareness training

The College has a duty of care and will provide pastoral support and care to all students through training and helping them to identify risk factors and to seek advice and guidance.

Staff and students will be annually trained on the risks of radicalisation and British values. British values will be defined as democracy, the rule of law, individual liberty and mutual respect and tolerance for those with different faiths and beliefs. This will be linked to the College's commitment to safeguard the nine protected characteristics defined by the Equality Act 2010.

Staff and students will be trained to understand the factors that make young people vulnerable to being drawn into terrorism and to challenge extremist ideas. Staff will be trained to recognise this vulnerability and be aware of what action to take in response and know where to seek additional advice and guidance.

e-Safety and the Prevent duty

The College provides details on how it will safeguard internet access to ensure students are safe from terrorist and extremist material by establishing appropriate levels of filtering and identity when this material is accessed for curriculum purposes.

External and Internal Speakers and Events

The College provides guidelines to staff about checking the content to be delivered.

Data sharing protocols

The College provides details on the Prevent duty section.

Reporting concerns

When any member of staff has concerns that a student may be at risk of radicalisation or involvement in terrorism, they should speak with the DSL in the first instance. They should then follow the safeguarding procedures and refer cases by e-mail to:

Surrey: preventreferrals@surrey.pnn.police.uk following the Prevent referral process and use the Prevent referral form.

Croydon: safercroydon@croydon.gov.uk or Channel@croydon.gov.uk outlining reasons for the concern.

If the matter is urgent then Police must be contacted by dialling 999. In cases where further advice from the Police is sought dial 101 (or 01483 632982 and ask to speak to the Prevent Supervisor for Surrey). Or use the Anti-terrorist hotline: 0800 789 321.

The Department for Education has also set up a dedicated telephone helpline for staff and governors to raise concerns around Prevent (020 7340 7264).

Indicators of vulnerability to radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism. Extremism is defined by the Crown Prosecution Service as:

The demonstration of unacceptable behaviour by using any means or medium to express views which:

- Encourage, justify, or glorify terrorist violence in furtherance of particular beliefs.
- Seek to provoke others to terrorist acts;
- Encourage other serious criminal activity or seek to provoke others to serious criminal acts; or
- Foster hatred which might lead to inter-community violence in the UK.

There is no such thing as a “typical extremist”: those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Students may become susceptible to radicalisation through a range of social, personal, and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that College staff can recognise those vulnerabilities.

Indicators of vulnerability include:

- Identity Crisis – the student is distanced from their cultural / religious heritage and experiences discomfort about their place in society;
- Personal Crisis – the student may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging;
- Personal Circumstances – migration; local community tensions; and events affecting the student’s country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy;
- Unmet Aspirations – the student / student may have perceptions of injustice or a feeling of failure;
- Experiences of Criminality – which may include involvement with criminal groups, imprisonment, and poor resettlement / reintegration;
- Special Educational Needs and Disability – students / pupils may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism. More critical risk factors in all the above could include:

- Being in contact with extremist recruiters;
- Accessing violent extremist websites, especially those with a social networking element;
- Possessing or accessing violent extremist literature;
- Using extremist narratives and a global ideology to explain personal disadvantage;
- Justifying the use of violence to solve societal issues;
- Joining or seeking to join extremist organisations;
- Significant changes to appearance and / or behaviour;
- Experiencing a high level of social isolation resulting in issues of identity crisis and / or personal crisis.

The Department of Education guidance The Prevent Duty can be accessed via the link at the end of this policy.

18. Contextual Safeguarding

All staff, but especially the Designated Safeguarding Lead (and Deputies) will consider the context within which such incidents and/or behaviours occur. Contextual safeguarding recognises that as young people grow and develop, they are influenced by a whole range of environments and people outside of their family. For example, in school or college, in the local community, in their peer groups or online. Children and young people may encounter risk in any of these environments. Sometimes the different contexts are inter-related and can mean that children and young people may encounter multiple risks. Contextual safeguarding looks

at how we can best understand these risks, engage with children and young people and help to keep them safe. [Contextual safeguarding | NSPCC Learning](#).

19. **Child, Young Person, or Adult at Risk in Care or a Care Leaver**

Children, young people, or adults at risk in care are two to three times more likely to have an emotional disorder. They are more likely to take greater risks for example using alcohol, smoking, drugs, and early sexual activity.

Children Looked After

The most common reason for children becoming looked after is because of abuse and neglect. The College ensures that staff have the necessary skills and understanding to keep looked after children safe.

Appropriate staff have information about a child's looked after legal status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child and contact arrangements with birth parents or those with parental responsibility.

The designated teacher and governor for children looked after will have the appropriate level training to equip them with the knowledge and skills to undertake their role.

The designated teacher for children looked after and the DSL have details of the child's social worker and the name and contact details of the Head of the Virtual School.

The designated teacher for children looked after and children previously looked after will work in partnership with the Virtual School Headteacher to discuss how Pupil Premium Plus funding can be best used to support the progress of children looked after in the College and meet the needs of the child within their personal education plan.

20. **Early Help Assessment**

All College staff should be prepared to identify children who may benefit from an Early Help Assessment. Early help means providing support as soon as a problem emerges at any point in a child's life. In the first instance, staff should discuss early help assessment requirements with the designated safeguarding lead. Staff may be required to support other agencies and professionals in an early help assessment.

All staff should be particularly alert to the potential need for early help assessment for a child who:

- is disabled and has specific additional needs;
- has special educational needs (whether they have a statutory Education, Health and Care Plan);
- is a young carer;
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups;
- is frequently missing/goes missing from care or from home;
- is at risk of modern slavery, trafficking or exploitation;

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another child or children.

21. Restrictive Physical Intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a student is at immediate risk of harming him/herself or others, and that at all times it must be the minimal force necessary to prevent injury to another person. Such events should be fully recorded and signed by a witness.

Staff who are likely to need to use physical intervention will be appropriately trained in de-escalation techniques or 'CPI' (Crisis Prevention Institute) techniques.

Staff understand that physical intervention of a nature which causes injury or distress to a student may be considered under child protection and/or support and intervention procedures.

We recognise that touch is appropriate in the context of working with children, and all staff have been given 'Safe Practice' guidance to ensure they are clear about their professional boundaries.

When applying support and intervention measures such as physical intervention or isolation for children with SEND the College will consider the risks, given the additional vulnerabilities of these children.

Surrey County Council Guidance Touch and the Use of Restrictive Physical Intervention When Working with Children and Young People provides further detailed information.

22. Public Interest Disclosure (Whistle-blowing)

All staff, including supply staff and volunteers, should be aware of their duty to raise concerns, where they exist, about the management of child protection and safeguarding, which may include the attitude or actions of colleagues, poor or unsafe practice and potential failures in the College's safeguarding arrangements.

If it becomes necessary to consult outside the College, they should:

(a) speak in the first instance to the LADO in accordance with the Public Interest Disclosure Policy.

(b) staff are encouraged to use an external, independent, and confidential service provided by Navex Global, who can be contacted on their freephone helpline number 0800 069 8180. The website link is as follows:

<https://secure.ethicspoint.eu/domain/media/en/gui/107090/index.html>

The NSPCC whistleblowing helpline is also available for staff who do not feel able to raise concerns regarding child protection failures internally or have concerns about a way a concern is being handled by their school/College.

Staff can call: 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and Email: help@nspcc.org.uk.

Whistle-blowing regarding the CEO, Principal should be made to the Chair of the Governing Body whose contact details are available to staff.

23. Students Accessing Alternative Provision

Where students are accessing the College as part of the day release programme any safeguarding concerns will be reported to a member of the College's safeguarding team.

This team will liaise closely with the Designated Safeguarding Lead from the young person's mainstream school, who will take the lead on the safeguarding case.

24. **Work Experience, Placement or Apprenticeship (aged 16-18)**

There are occasions when children, young people and adults at risk are placed in settings outside the College. Children, young people, and adults at risk are more vulnerable to abuse or harm in these situations than in short term placements, and therefore children, young people and adults at risk protection arrangements are a relevant concern for longer term placements. Additional safeguards will be necessary for placements when one or more of the following conditions apply.

The placement is:

- For more than one day per week.
- For longer than one term in any academic year.
- Aimed at those who may be vulnerable, e.g. those who have special needs or are young (aged under 16).
- One where the workplace supervisor or a colleague will have substantial unsupervised access to the child, young person, or adult at risk, because of the nature of the business (i.e. micro business, sole trader, or journeyman).
- One which has a residential component.

All learning providers working with children, young people and adults at risk therefore have a duty of care to ensure safeguarding policies and procedures are in place and followed by their employees and volunteers. To do this we will ensure that we:

- Create and maintain an environment in which children, young people and adults at risk feel secure, are encouraged to talk, and are listened to.
- Include curriculum activities and opportunities to enable students the opportunity to attain skills and attitudes, to help them resist abuse in their own lives and to prepare for the responsibilities in their adult lives, including parenthood.
- Communicate a clear model of management of suspected or disclosed abuse.

Strategic responsibilities for safeguarding students who attend work experience or placements

If any of the above conditions apply, the following safeguards should be in place at a strategic level.

Staff who arrange, vet, or monitor work placements will have had training in safeguarding.

Training organisations or employers taking responsibility for a child, young person, or an adult at risk on a long-term placement will be asked to make a commitment to safeguarding their welfare by endorsing an agreed policy or statement of principles.

Any person whose normal duties will include regularly caring for, training, looking after or supervising a child, young person or adult at risk in the workplace should be vetted and subject to DBS Disclosures to ensure he/she is not disqualified from working with children, young people or adults at risk, or otherwise unsuitable to be responsible for them.

This should not include people who will have contact with the child, young person, or adult at risk simply because he/she will be in the same location, or as part of their work. It is intended to apply to people who are specifically designated to have responsibility for looking after, supervising, or directly training a child, young person, or adult at risk throughout the placement.

DBS Disclosures and Barred List checks will be arranged by the College.

That person will also be given basic safeguarding training to be aware of their responsibilities. They should be given details of a person to contact if there are any concerns about a student for whom they are responsible.

The students who are placed in these settings will also be given clear advice about who to contact if they are worried or uncomfortable about their surroundings or if they suffer abuse. They will have a continuing point of regular contact within college and be given opportunities to raise any concerns they may have.

If a concern is raised regarding a child, young person or adult at risk who is on a long term placement, then the normal College safeguarding procedures will apply.

In some cases it is also important to ensure that the student concerned is suitable for the placement (for example, when placing children, young people, or adults at risk in environments involving them working with younger children). In these circumstances DBS Disclosures may be required.

25. Monitoring

This Policy will be reviewed annually and monitored in accordance with College monitoring procedures.

26. Access to Policy

This Policy is available on the College Intranet and Websites.

27. Training and Guidance

Questions about this Policy and/or Procedure, and requests for training, guidance, or information on this Policy and/or Procedure, should be directed to the Executive Director of Human Resources and Professional Development.

28. Mechanisms for Feedback

Constructive comment on the continued improvement of this Policy is welcomed and should be forwarded to the Executive Director of Human Resources and Professional Development.

A. Safeguarding Statement

We are committed to building a 'culture of safety' in which students are protected from abuse and harm in all areas of college activity. Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone who encounters children, and their families and carers have a role to play in safeguarding children. To fulfil this responsibility effectively, all professionals should make sure their approach is child centred. This means that they should consider, always, what is in the **best interests** of the child. All staff will be encouraged to maintain an attitude that "it could happen here"

The College recognises that it is good practice to safeguard all members of the college community in line with this policy document.

C: Terminology

<p>Safeguarding and promoting the welfare of children is defined as:</p> <ul style="list-style-type: none"> • protecting children from maltreatment; • preventing impairment of children's health or development; • ensuring that children grow up in circumstances consistent with the provision of safe and effective care; • taking action to enable all children to have the best outcomes; • Preventing impairment of children's mental or physical health or development.
<p>Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.</p>
<p>Early Help Assessment means providing support as soon as any needs emerge or are identified at any point in a child's life.</p>
<p>Staff refers to all those working for or on behalf of the College, full or part time, temporary or permanent, in either a paid or voluntary capacity.</p>
<p>Child(ren) includes everyone under the age of 18. Overall, this will apply to students at our Colleges; however, the policy will extend to visiting children and students from other establishments</p>
<p>'Adult at Risk' An 'adult at risk' is defined by the Department of Health as a person aged 18 years or older who is or may be in need of community care services by reason of mental or other disability, age or illness; and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation'.</p>
<p>Parents refers to birth parents and other adults who are in a parenting role, for example step-parents, foster carers and adoptive parents.</p>
<p>Social Care refers to Children's Services in the area in which the child is resident, unless a child is a Child Looked After then this will be the Children's Services in their home authority.</p>
<p>MAP refers to the Surrey Multi-Agency Partnership.</p>
<p>C-SPA refers to the Surrey Council's Children's Single Point of Access and the Child Protection Consultation Line</p>
<p>SPOC refers to the Croydon Council's Children's Single Point of Access and the Child Protection Consultation Line</p>
